

Dear Editor,

Greetings, I am writing this letter on behalf of the first author of the paper to request extra time for review submission. We apologize that we were not able to meet the review deadline since our main author had some health issues. More importantly, the review needs some extra simulation results that cause time. Therefore, we would be grateful if you could allow us to submit review response on or before January 14, 2014.

Details of the paper:

Manuscript Number: JVCI-14-282

Paper title: Quadri-Directional Searching Algorithm for Secret Image sharing Using Meaningful Shadows

Thank you.

With regards

--
