

Dear Professor,

We are honored that our paper, MM-005239 Novel Lossless Morphing Algorithm for Secret Sharing via Meaningful Images, was recommended to be REVISED AND RESUBMITTED (RQ) by IEEE Transactions on Multimedia. We appreciate so much for the helpful suggestions given by referees, and now we are revising this paper according to the valuable comments.

However, according to the referees' suggestions, a lot of experiments should be done. Although we have done our best to finish all the required experiments, time is not enough.. (The deadline for submission of our revised paper is March 5, if 6 weeks for revision are given). Therefore, we would be grateful if one more week for revision is given, i.e., could we submit our revised paper by March 12?

Thank you very much!

Sincerely,

C. C. Chang, Ph.D.

Chair Professor & IEEE Fellow
